

OUTSTANDING DURABILITY

Accoya® wood's durability (rot resistance) is Class 1, matching and even exceeding the performance of nature's most durable woods such as Oak, Teak, Iroko and Sapele. Every batch of Accoya® wood is tested after production to ensure that its durability can be guaranteed.

The Accoya® advantage:

- Joinery that will stand the test of time and not require replacement for at least 60 years**
- Use in demanding external applications, even in fresh water
- Beauty, elegance and style - natural or coated

SHEET PILING

Acetylated Poplar *

Unmodified Wood

After 10 years in fresh water

TERMITE MASS LOST TEST

Mastotermes darwiniensis is the most destructive species of Australian termite and active north of the Tropic of Capricorn. Hazard Class 3 above ground testing was set up in Northern Territory, Australia according to the AWPA protocol by the Australian Forest Research Company.

OUTDOOR STAKE TEST

Based on ASTM D 1758. Decay rates in outdoor stake test range from 0 (failed) up to 10 (no decay or insect damage)

DIMENSIONALLY STABLE

Accoya® wood's superior dimensional stability (resistance to swelling and shrinkage) exceeds all commonly used species, including Teak, Sapele and Iroko. Accoya® wood has been tested over prolonged periods in all types of weathering conditions - above ground, below ground and even in water - and has been proven to withstand even the toughest of external environments.

The Accoya® advantage:

- Reduced swelling and risk of jamming in humid conditions
- Better fitting windows and doors in all weathers
- Less frequent coatings maintenance

TRADA TRIAL RESULTS

Accoya® wood was the only wood that did not cup in this TRADA** trial on wooden cladding.

REDUCED SWELLING

Acetylated wood*

Oven-dry Water saturated

Unmodified wood

Oven-dry Water saturated

TANGENTIAL SHRINKAGE

Typical tangential shrinkage from fully soaked to oven dry - the most extreme laboratory test.

IDEAL
FOR COATING

Accoya® wood has shown improved coating lifetime performance with many types of coatings, resulting in extended maintenance intervals. The light colour of Accoya® wood allows for a wide range of colour finishes. Improved stability means film-forming coating systems last up to two times longer. Accoya® wood is easier to coat, less preparation and sanding is required.

The Accoya® advantage:

- Potential for less frequent coatings maintenance
- Cost savings during the life of the product
- Environmental benefits during the life of the product
- Wider range of colour and coatings options

COATING COMPARISON AFTER 13 YEARS OUTDOOR EXPOSURE

Translucent WB Acrylic Coating

Acetylated wood*

Unmodified wood

Opaque WB Acrylic Coating

Acetylated wood*

Unmodified wood

TRADA COATING TEST

42 months outdoor exposure

Pine

Accoya® wood

Accoya® wood outperformed pine boards showing excellent coating performance.

SUSTAINABLE
CHOICE

By significantly enhancing the durability and dimensional stability of fast growing, abundantly available certified wood species, Accoya® wood provides compelling environmental advantages over scarce slow growing hardwoods, woods treated with toxic chemicals, and non-renewable carbon-intensive materials such as plastics, steel and concrete.

The Accoya® advantage:

- Always sustainably sourced from abundantly available, often fast growing wood species
- Use phase advantages: increased life span, less maintenance, superior thermal insulation
- Non toxic and 100% recyclable – a perfect fit with the bio-cycle of the C2C philosophy
- CO₂ negative over the full life cycle

ANNUAL YIELD

[m³ / ha / year]

Annual yield comparison of species in cubic meters of wood produced per hectare per year

¹ Plantation grown

CARBON FOOTPRINT

[kg CO₂ eq / window frame]

Greenhouse gas emissions (cradle to grave) in kg CO₂ eq per window frame in various material alternatives

² Sustainably sourced
³ Unsustainably sourced

ECOLABELS

Accoya® wood has been awarded various accreditations and eco-certifications further highlighting its unique sustainability properties.

BREEAM®

LEEDv4: MR1, MR2, MR3, MR4 I1
BREEAM: MAT 1, MAT 5
