PVC-U SKIRTING & ARCHITRAVES MADE EASY

With this high-quality PVC-U solution, there's no more time-consuming sanding, painting or mitring of skirting board corners. It's the ultimate no hassle, no maintenance, easy to fit and cost-effective way to achieve great results.

While 100mm high skirting boards look great in more modern homes, many older properties need a taller board to retain their traditional feel. That's why we have a 150mm high skirting board and a fabulous looking chamfered shape.

Fitted in half the time

With the easy-fit Roomline system, lengths of skirting board are simply slotted together – and pre-moulded corner pieces mean there's no need for mitring. Both architraves and skirting boards are glued in place using readily available adhesives, with no need for nails or screws. By saving all the time you'd spend installing and painting traditional timber, you'll get the job done up to 50% faster.

Never sand, paint or treat again

Roomline PVC-U skirting boards and architraves need no sanding, painting or treatment – not only when they're fitted, but throughout their life too.

The sustainable choice

Every skirting board and architrave in the Roomline range is made from 100% recycled material from Deeplas' own production waste. You can't get more environmentally friendly than that!

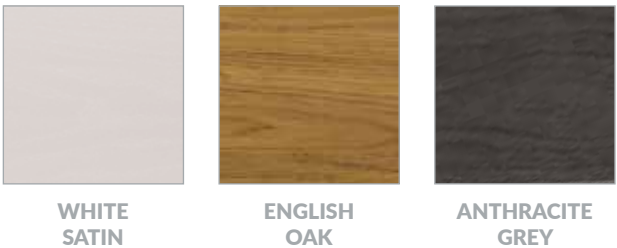

Hard wearing performance

Roomline skirting boards and architraves are designed to withstand the inevitable knocks and bumps they will receive in a busy home or office. Their laminated finish is scratch-resistant, and a robust webbed structure makes them tough, durable and impact-resistant.

COLOURS

A choice of attractive colours Roomline skirting boards and architraves are available in clean Satin White, as well as English Oak and Anthracite Grey to give you all the aesthetic benefits of timber.

SKIRTING BOARDS SIZES

All skirting boards are 5m in length and 15mm deep and come in two height options of 100mm and 150mm in both ogee and chamfered shapes.

- ▶ 100mm or 150mm high x 15mm deep x 5m long

ARCHITRAVES SIZES

- ▶ 60mm wide x 15mm deep x 5.5m long

Architrave door kits:

- ▶ 60mm wide x 15mm deep x 2.25m long
- ▶ 60mm wide x 15mm deep x 1m long

ORDER CODE

- ▶ See pages 6-7 for SAP ordering codes.

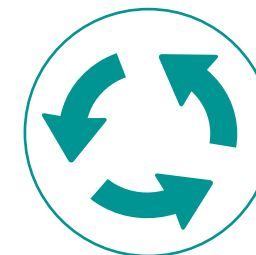

WHY CHOOSE ROOMLINE?

Up to 50%
quicker to fit
