EMBOSSSED CLADDING GUIDE

Refresh tired, old brickwork or timber cladding with robust, fresh PVC-U embossed shi lap cladding.

Deeplas PVC-U shi lap cladding provides an attractive, low maintenance, weather resistant solution for replacing rotten timber cladding, concealing problem areas of brickwork or adding an interesting new feature to a property.

Available in shi lap and featheredge styles, our cladding is designed for easy installation. Our range of colours and realistic embossed finishes mean you can create a truly unique appearance, whether you want a rustic timber-effect or a crisp contemporary white finish.

Ventilation trims must be used for all Deeplas Cladding systems to increase air circulation and avoid issues with condensation, heat build-up and drainage.

COLOURS TO ENHANCE EVERY PROJECT

Embossed PVC-U cladding is available in a wide range of colours to suit all tastes:

P2761 Starter Trim Aluminium 3m length
P1024 Double Shi Lap Plank (300mm) 6m length (Type 560)
P1029 Butt Joint Trims for P1024 (Type 560)
P1036 Feather-Edged Plank (167mm) 6m length (Type 561)
P1037 Butt Joint Trims for P1036 (Type 561)

P1013 Centre Joint 6m length (Type 887)
P1020 Edge Trim 6m length (Type 887)
P1021 Top Edge Trim* 6m length (Type 887)
P1112 Two Part Corner Trim 6m length (Type 887)

*When using the 1021 top edge trim, two lengths will be required for installation as they are only supplied in single lengths.

INTRODUCING

DEEPLAS EMBOSSED CLADDING

NOW AVAILABLE IN ANTHRACITE GREY

One of our most requested colours has arrived.

Deeplas Embossed Cladding is now available in **Anthracite Grey** – a modern, sophisticated finish that customers have been asking for.

This striking dark grey tone delivers a contemporary look that complements both traditional and modern properties.

Designed with practicality in mind, Deeplas Embossed Cladding combines an authentic textured finish with the durability and low-maintenance benefits you expect from Deeplas.

It's quick and easy to install, weather-resistant, and built to maintain its appearance for years to come.

WE'RE PLEASED TO INTRODUCE OUR LATEST INNOVATION –

New

the vented batten cover, now available as part of the Deeplas cladding system.

Designed to enhance ventilation and complement our existing range, this new trim helps ensure optimal airflow behind the cladding while maintaining a neat and professional finish. It's fully **compatible with all Deeplas cladding**, making it a convenient and flexible solution for both new and ongoing projects.

Ventilation is essential to be covered by the product guarantee.

This enhancement marks the next step in our commitment to product development.

Deeplas cladding has been trusted for years – and now, with this addition, we're giving installers and specifiers even more choice when it comes to achieving the perfect finish.
