TWINSON PREMIUM DECKING

ELEGANT, LONG-LASTING DECKING, WITH RESPECT FOR NATURE

Twinson gives you the best of both worlds, the natural appearance and warm feel of wood as well as the low-maintenance and durability of PVC. Twinson is 100% recyclable which makes it an environmentally friendly alternative to tropical hardwood.

This seamless transition between nature and technology gives a beautiful, natural decking that fits perfectly with your

outdoor space, bringing the peace and tranquility of your outside, inside.

Whether it is a simple area to catch the sun or a full raised deck, Twinson has all the components you need for a hard wearing, long lasting deck.

BENEFITS OF TWINSON PREMIUM DECKING

- ▶ Splinter free
- ▶ Natural appearance
- ▶ Resistant to insects
- ▶ Does not split
- ▶ 100% recyclable
- ▶ Durable, Low Maintenance
- ▶ Easy to fit
- ▶ Hidden fixings
- ▶ High slip resistance even when wet

Easy to maintain

Twinson decking needs no painting or staining due to its unique composition. The boards will not split, rot and are splinter free. Twinson decking will gradually obtain a natural patina due to exposure to outside elements.

High slip resistance

Twinson decking has two finishes, grooved and smooth. Combining safety and comfort it provides high slip resistance even when wet. What's more, Twinson boasts the highest and safest classification for barefoot and rubber sole resistance!

Environmentally friendly

Twinson has all the advantages of tropical hardwood, and more. While tropical hardwood is only available from threatened rainforest's, Twinson is 100% PEFC-certified. This means that the wood used in Twinson comes from managed, sustainable forests. Twinson has a long life expectancy, hence the products that contain it guarantee years of quality service. After their usable life, they can be 100% recycled and reused without loss of quality.

TWINSON PREMIUM DECKING

Colours available

► With the range of these colour options you can create decking designs to satisfy your creative feel.

TWINSON CLASSIC AND SOLID RANGE

► With six options

The colour samples are reproductions and can deviate from the originals. The large inset shows the natural colour which Deepplas composite decking will change to over time. Twinson contains wood fibres, susceptible to differences in colour and appearance. As soon as the product is exposed to sun and rain, these fibres will under go a natural ageing process and will be subject to colour change. After a couple of months the final patina will be achieved. Planks should be mixed prior to installation to obtain a natural effect.

Installation manual should be downloaded prior to any installation from www.deeplas.co.uk

HOLLOW DECKING

THE DURABLE ALTERNATIVE TO TIMBER

FEATURES & BENEFITS

- Recycled wood polymer construction
- More durable than timber
- Concealed fixings
- Anti-slip surface
- Durable and long-lasting
- Low maintenance - no need to paint, stain or seal
- Does not rot, warp or splinter
- Support up to 100kg
- Dual surface (woodgrain & grooved)
- Installation guides available Online!

Hollow decking – top tips

- ▶ Providing expansion gaps allows proper drainage and ventilation to the sub base which prevents the timber from rotting
- ▶ Do not lay the decking boards directly onto a solid surface
- ▶ Always allow a 150mm air-gap to create unobstructed airflow under the deck
- ▶ Hollow decking requires a smaller level of maintenance over its life. Cleaning up with a garden hose is sufficient to uphold its colour
- ▶ Do not to use aggressive chemical cleaning products
- ▶ Hollow decking can be cleaned with a pressure washer, but its important to ensure the unit is less than 80 bar, the temperature must be no more than 40 °C, and position the lance head no closer than 30cm
- ▶ Do not place heavy items over 100kg on your deck or drag furniture across the decking planks which could damage your deck.

Hard-wearing

Low maintenance

Highly water resistant

COLOURS AVAILABLE

▶ With four colour options you can create decking designs to give your garden, holiday home or patio a truly stylish look.

COLOUR OPTIONS

NATURAL

WALNUT

GRAPHITE

* Fencing posts are designed to flex and from our experience over the years, we would advise that for fences over 6ft tall a cement grout is poured down the inside of the posts to reduce excess flex. When fitting a gate, a timber post will need to be fixed to the composite posts to provide a square edge for the hinges and catch. Watermarks may appear on panels, this will fade with time and add a weathered look to the board. Colour will fade and change over time due to weathering.

ADD A SHAPED TOP FOR A PREMIUM LOOK

ECOFATCLIP

DEEPLAS PREMIUM FENCING

FEATURES & BENEFITS

- Simple tongue and groove fitting system
- Reduced environmental impact
- Tough and hardwearing

Premium fencing that's built to last

With its modern, sleek colour and simple tongue and groove fitting system that provides additional adaptability, composite fencing is ideal for a wide range of gardens. No compromise is made with appearance, as composite fencing has an on-trend look that will not deteriorate as it is warp free, rot free and splinter-free.

Being capable of withstanding the test of time, whilst not ridding the world of its natural resources, also makes composite fencing a sustainable and forward-thinking option. Merging sustainability with low maintenance, the popularity of composite fencing is only likely to grow, and with the premium look that it brings, we can all be happier for it.

- All fence posts are 2.4m in height and can be cut to the size required. If you are installing the fence onto concrete ground such as a driveway then the steel post mounts are required.
- If installing on soft ground ensure that the fence is rooted strongly enough, and bury it at least 60cm into the ground. This will give strength to the post when installed.
- When preparing the groundwork for the installation of the fence, you must ensure that the ground is as level as possible.
- If the fencing is to be built on a slope, requirements must be made to the groundwork to ensure the fencing goes up in steps. There is no gravel board which requires burying in the ground. Therefore the ground needs to be level.
- Panels are 150mm x 21mm x 1830mm tongue and groove. The first panel will sit on the bottom rail, panels will then stack one on top of the next to the desired height.
- Height can not exceed 6ft.

GARDEN ROOMS DESIGN OVERVIEW

FOUR ATTRACTIVE DESIGNS

Our Garden Rooms are available in four attractive designs, Studio One, Studio View, Studio Frame and Studio Canopy each offering their own unique style with customisable options that allow you to personalise it in a way that suits your needs.

The exterior can be finished in either a traditional ship-lapped or a modern vertical flush cladding which is made from low maintenance composite PVC. Choose from a range of six New England colours or four natural wood effect colours that will blend beautifully with any garden.

Inside, our Garden Rooms are finished with OSB giving you a blank canvas to create your perfect space and come as standard with a full electric pack. This includes plug sockets, lighting and a panel heater.

Take advantage of our interiors pack that offers a choice of wall cladding, luxury vinyl flooring and recycled UPVC skirting, meaning that your garden room will be ready to use as soon as it's installed; or for ultimate flexibility choose to have your walls boarded and plastered.

To complete your garden room, choose from our stylish French, sliding or bi-fold doors in a choice of three colours, with five door furniture colour options. To add an extra touch of personalisation, there's options to add an additional full-height window, a corner window or even extra storage space.

Available in a range of sizes from 2.54m x 2.54m to 6.2m x 3.76m there's a room to suit every garden.

STUDIO ONE

AN OUTDOOR LIVING SPACE TO COMPLEMENT YOUR HOME

Our Studio One Garden Room is a beautiful addition to any garden, combining practicality with style, the Studio One Garden Room can be easily tailored to meet your needs, along

with a choice of 16 standard sizes and three door styles, you also have the opportunity to create something a little more bespoke by adding additional full-height or corner windows.

STUDIO VIEW

DUAL ASPECT DOORS FOR A PERFECT GARDEN VIEW

Offering the perfect balance of natural light and garden views, the Studio View Garden Room is a garden lovers dream. The dual aspect doors allow light to flood into the entire garden room. If that isn't enough to convince you that

this is the perfect garden room for you, opening up both sets of doors creates the perfect flow between your garden room and your garden.

STUDIO FRAME

TRADITIONAL DESIGN MEETS CONTEMPORARY STYLE

The Studio Frame Garden Room combines a traditional garden room design with a modern twist. The contemporary front veranda surrounds the garden room and creates an additional space for you to enjoy while elevating the look of a

standard garden room. Due to its modern twist on tradition, this design of garden room is a perfect fit if you are looking for functional luxury.

STUDIO CANOPY

THE ULTIMATE INDOOR OUTDOOR SPACE

The Studio Canopy takes garden rooms to the next level, allowing you to combine your garden room with a canopy, perfect for creating a seating or dining area that offers shelter from the midday sun or a passing shower, and allows you to continue to enjoy your outdoor space come rain or shine.

You can even choose to add an extra set of side doors to your garden room giving you direct access to the canopy area. For extra privacy, the canopy sides can also be enclosed to suit your needs.

DISCOVER THE EXTRAS

WINDOW OPTIONS TO FRAME YOUR VIEW

We all know that being in nature and being exposed to natural light helps to improve our wellbeing, so adding an extra window to your garden room is a fantastic way to allow more light to flood the space helping you to connect with the outdoors.

Choose between a full height or corner window or add both to create a garden room to suit your space and style.

DISCOVER THE EXTRAS

NEED MORE STORAGE? ADD-ON STORAGE

Do you love the idea of a garden room but still need somewhere to store those items that create clutter?

Our add-on storage extension is the perfect solution. The add-on storage extends out from the side of your garden room and provides extra space for storage. It's accessed through a single double-glazed or unglazed door.

CREATE YOUR PERFECT INTERIOR PACK

Our Garden Rooms come with OSB lined interior walls as standard. You can add an Interior Décor Pack to complete the finish.

So, your space will be ready to use as soon as it's installed.

Wall Cladding

Panelled walls are the perfect way to create a cosy atmosphere in your garden room. They're incredibly durable and easy to clean. Choose from three classic colours and textures: Fun Wood, Brown Slate and Light Wood.

Luxury Vinyl Flooring

Vinyl flooring is ideal for garden rooms. It's easy to clean, and it's slip and water-resistant, it also adds sound and insulating properties to help your room feel snug all year round. Choose from four beautiful wood effect colours: English Oak, Irish Oak, Swedish Oak and Norwegian Oak.

Recycled UPVC Skirting

Skirting boards add the finishing touch to your room. The surface never needs sanding or painting. Simply wipe clean to keep it looking its best. Choose from three stunning colours: English Oak, White Satin and Anthracite Grey.

Prefer to choose your own interior finishes?

Opt for a skimmed plasterboard finish to the walls and ceiling, giving you the ultimate flexibility to decorate your garden room in a style that suits you.

DISCOVER THE EXTRAS

ADD A SIDE DOOR AND DECKING

All of our Garden Rooms have the option to add an extra set of side doors. Take our Studio Canopy Garden Room, for example, not only can you add side doors, the option to add

composite decking is available too - giving that added bit of luxury below the canopy.

BESPOKE SERVICE - SOMETHING ELSE IN MIND?

We know that sometimes you will have specific design needs for your garden room. If you can't see your dream garden room in our brochure, let us know!

We're happy to discuss your requirements and design a garden room that's perfect for you.

OASIS PERGOLAS

WITH TILT OR FULLY SLIDING RETRACTABLE LOUVRES

Our Oasis pergolas come in two options. The Deluxe pergola has a retractable roof and is available in eleven sizes. And the standard pergola has a fixed rotating louvre roof and is available in six sizes. You can also choose to have your pergola freestanding or as a canopy attached to your house. Our pergola ranges are all manufactured with aluminium square frame in grey.

Oasis Deluxe Pergolas

A deluxe pergola gives you the best of both worlds. Have an open space above your head so you feel like you're sitting out in the open. Or cover up at the touch of a button if it's too sunny or starts to rain. So, whatever the weather, you can experience the ultimate outdoor living feeling.

They're available in eleven sizes, ranging from our smallest at 3 x 3.02m, to our largest at 4 x 6.08m.

Deluxe pergolas also come with the option of adding an LED light strip. Providing you with an easy way to enjoy your space as the sun goes down.

Oasis Pergolas

If you want to decide for yourself how much you want to enjoy the sun and weather, the Oasis pergola is the perfect choice. Using a remote control, you can easily tilt the louvres in the roof to a different position. So, you can play with the light, the shade and the airflow above you.

During the summer, you'll have the flexibility to either sit in the sun or take advantage of the shade. And in winter, you'll experience the benefits of a waterproof roof, protecting you against the elements. This allows you to enjoy your outside space all year round.

They're available in six sizes, ranging from our smallest at 3 x 3.01m, to our largest at 4.95 x 3.5m.

These pergolas also come with the option of adding an LED light strip.

OASIS VERANDAS

EXTEND THE TIME SPENT OUTSIDE

Our Oasis verandas come in two options. The glass veranda has a glazed roof, and the polycarbonate veranda has a polycarbonate roof with four colour options. In addition, you can choose from three frame colours and two types of leg, guttering and footplate.

They're available in three widths and five depths, ranging from our smallest at 4.06 x 2.50m, to our largest at 6.06 x 6m.

All our verandas have an aluminium frame in a choice of three colours: white textures, cream white or grey textured.

Oasis Verandas with glazed roof

Enjoy the daylight and uninterrupted views of trees, birds and stars, under a beautiful clear glass veranda. Our Oasis glass verandas aim to bring enrichment to your outdoor life, and a feeling a pure luxury. They give you space to enjoy being outdoors while offering you shelter from bad weather. And a glass roof means they won't block out the light coming through your home's windows.

Oasis Verandas with polycarbonate roof

If you'd like a veranda that's finished to perfection and is fully customisable to your needs, then meet the Oasis polycarbonate roof veranda.

Our polycarbonate roof veranda comes in a choice of three roof colours. If you love a clear view so you can see the sky and trees around you, choose a clear or ultra-clear. Or if you'd prefer a bit of protection from the sun, but still want plenty of light coming through, opt for an opal or solar control.
