## THERMO-S L A T

Each of our wall slats are designed with a cavity in the back to offer thermal air pockets to help retain heat during the cold months and help keep the room cool in the summer. Not only do these panels offer a beautiful visual appearance inside, they also are a fantastic addition to any garden room to make use of your functional outdoor living space all year long.

## TRADE LINE

MB Trade Line is a highly cost effective range of panels encompassing a variety of finish options including sparkle, marble, and ash effects all at very competitive prices.

## HARDEX 'V'GROOVE WALL PANELLING

**Panel Size Length: 2.5m Width: 60cm Thickness: 9mm**

A new spin off range from the existing Hardex Solid Wall Panelling, the below colours are now available in our new Hardex V Groove collection. Unlike the original Hardex these sturdy panels are manufactured in a 600mm width rather than the wider 1220mm.

The range comes in matching colours to our narrower 30cm wide Mineral range so rooms can utilise a mix of both.

More robust than standard cladding with a stylish V Groove join these panels are fully waterproof when sealed correctly so are ideal for bath and shower areas.

Each panel covers a wider area, this larger coverage per panel makes fitting quicker. However they are narrower than standard shower panels therefore there is less waste when fitting and they are easier to transport and handle.

Suitable trims can be found on page 25.

### HARDEX SOLID WALL PANNELLING

The original Hardex range uses 100% Wood Plastic Composite (WPC) to satisfy the needs of customers who require a hard wearing, ultra durable solution that's as stylish as it is tough. Supplied with a flush square edge style fitting and consisting of 8 colours, this range is ideal for not just the home but also commercial use, such as in restaurants, pubs, offices, caravan parks, youth clubs and public restrooms due to its solid construction.
