# **OUTDOOR LIVING**

# WELCOME TO THE WORLD OF TWINSON, WHERE TECHNOLOGY AND NATURE GO HAND IN HAND

Twinson gives you the best of both worlds, the natural appearance and warm feel of wood as well as the low-maintenance and durability of PVC. Twinson is 100% recyclable which makes it an environmentally friendly alternative to tropical hardwood.

Twinson is 100% PEFC-certified. This means that the wood used comes from managed sustainable forests. Twinson has a long life expectancy, hence the products that contain it guarantees years of quality service. After their usable life, they can be 100% recycled and reused without loss of quality.

## TWINSON PREMIUM DECKING

### ELEGANT, LONG-LASTING DECKING, WITH RESPECT FOR NATURE

Twinson is a unique material blending virgin PVC with pinewood to create a single new base material, which is 100% traceable and 100% recyclable.

This seamless transition between nature and technology gives a beautiful, natural decking that fits perfectly with your

outdoor space, bringing the peace and tranquillity of your outside, inside.

Whether it is a simple area to catch the sun or a full raised deck, Twinson has all the components you need for a hard wearing, long lasting deck.

#### BENEFITS OF TWINSON PREMIUM DECKING

- ▶ Splinter free
- ▶ Natural appearance
- ▶ Resistant to insects
- ▶ Does not split
- ▶ 100% recyclable
- ▶ Durable, Low Maintenance
- ▶ Easy to fit
- ▶ Hidden fixings
- ▶ High slip resistance even when wet

#### Easy to maintain

Twinson decking needs no painting or staining due to its unique composition. The boards will not split, rot and are splinter free. Twinson decking is UV stable and gradually obtains a natural patina due to exposure to outside elements.

#### High slip resistance

Twinson decking has two finishes, grooved and smooth. Combining safety and comfort it provides high slip resistance even when wet. What's more, Twinson boasts the highest and safest classification for barefoot and rubber sole resistance!

#### Environmentally friendly

Twinson has all the advantages of tropical hardwood, and more. While tropical hardwood is only available from threatened rainforest's, Twinson is 100% PEFC-certified. This means that the wood used in Twinson comes from managed, sustainable forests. Twinson has a long life expectancy, hence the products that contain it guarantee years of quality service. After their usable life, they can be 100% recycled and reused without loss of quality.

# TWINSON PREMIUM DECKING

## Colours available

► With the range of these colour options you can create decking designs to satisfy your creative feel.

## TWINSON CLASSIC AND SOLID RANGE

► With six options

The colour samples are reproductions and can deviate from the originals. The large inset shows the natural colour which Deepplas composite decking will change to over time. Twinson contains wood fibres, susceptible to differences in colour and appearance. As soon as the product is exposed to sun and rain, these fibres will undergo a natural ageing process and will be subject to colour change. After a couple of months the final patina will be achieved. Planks should be mixed prior to installation to obtain a natural effect.

Installation manual should be downloaded prior to any installation from [www.deeplas.co.uk](http://www.deeplas.co.uk)

# HOLLOW DECKING

## THE DURABLE ALTERNATIVE TO TIMBER

Composite hollow decking is perfect for gardens, patios, pool areas and holiday homes. Its recycled wood polymer construction makes composite wood so much more durable than timber. Composite wood has added resistance to damage from a variety of the common threats to the appearance of decking; whether that be bicycles, barbecues, party-goers, paddling pools or garden furniture.

Scrubbing and staining your deck every year is a thing of the past with composite wood decking. It comes in four

natural shades that resist the fading caused by sunlight and air pollutants. The colour is also constant through the entire core of the product so composite wood's appearance with regard to its colour has greater longevity, with something as simple as an annual, light jet wash being enough to uphold this level of appearance.

Clever concealed fixings give a neat, flawless finish which can be installed quickly and easily making composite wood the ideal decking choice.

### BENEFITS OF COMPOSITE HOLLOW DECKING

20 year guarantee

Natural look

Durable and long lasting

Slip resistant

No painting or staining

Seamless installation with hidden fixings

### Durable, strong with lifelong beauty

- ▶ Hollow decking is made using a unique homogeneous wood polymer construction that maintains its high performance for years and years without the need for time consuming maintenance and painting
- ▶ Hollow decking is constructed from ethically sourced, traceable recycled wood from timber mills and recycled plastic polymer

- ▶ Hollow decking is colour stabilised to protect it from UV rays and other fading effects
- ▶ Hollow decking has 60% timber content to prevent damage. It is strong enough to withstand stiletto heels and is naturally slip resistant and splinter free making it safer for children, visitors and pets.

### Hollow decking – top tips

- ▶ Providing expansion gaps allows proper drainage and ventilation to the sub base which prevents the timber from rotting
- ▶ Do not lay the decking boards directly onto a solid surface
- ▶ Always allow a 150mm air-gap to create unobstructed airflow under the deck
- ▶ Hollow decking requires a smaller level of maintenance over its life. Cleaning up with a garden hose is sufficient to uphold its colour
- ▶ Do not to use aggressive chemical cleaning products
- ▶ Hollow decking can be cleaned with a pressure washer, but its important to ensure the unit is less than 80 bar, the temperature must be no more than 40 °C, and position the lance head no closer than 30cm
- ▶ Do not place heavy items over 100kg on your deck or drag furniture across the decking planks which could damage your deck.

### COLOURS AVAILABLE

▶ With four colour options you can create decking designs to give your garden, holiday home or patio a truly stylish look.

# COMPOSITE FENCING

## A QUICK AND EASY SOLUTION

The unique finish of composite fencing will add beauty and complement a garden's natural surroundings. These incredibly light fencing panels are incredibly strong, making general handling and transportation easy.

Environmentally friendly, composite fencing is manufactured from 75% recycled materials with a composite skin. In using composite fencing you can be assured that you are protecting the world's natural resources and helping the environment.

### Easy to install with new posts or existing concrete posts

▶ Composite fencing is so easy to cut, gravel boards can be easily trimmed to suit popular European fence panels which are 1.8m wide

▶ Composite fencing posts and gravel boards can also be used in conjunction with wooden panels

▶ Composite fencing's unique finish will add beauty and complement gardens for years to come. Unlike most traditional fencing, the dual face means you can also share the cost with neighbours

▶ Replace rotten old wood panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance free fence which not only looks good but is easy to install and never needs treating

▶ Composite fencing is a pleasure to work with at around 5kg it is incredibly light and strong, making general handling and transportation easy.

### BENEFITS OF COMPOSITE FENCING

20 year guarantee

Save time and money

Eco friendly

Tough and hard-wearing

No painting or staining

Easy to clean

### COLOURS AVAILABLE

▶ With three colour options you can create fencing designs to give your garden a truly stylish look.

We are replicating the characteristics of timber and working with recycled material, products will vary in shade and texture. All these effects are normal and part of the manufacturing process and in no way affect the longevity of Composite Fencing. The material will become lighter in appearance over time in much the same way as timber does.

# KYUBE GARDEN ROOM RANGE

## GET MORE OUT OF YOUR GARDEN

Get more out of your garden with one of our bespoke Kyube Garden Buildings. We've created a range of Garden Buildings which can be tailored to your specific requirements, handmade to order and can be delivered to your home within 8 weeks. Your Kyube can be constructed and ready to use in a few days after delivery.

Whether you want to create a home office, entertainment space, or even a child's playroom, our flexible options ensure it's easy to design your own Kyube - creating that much needed additional space in your home which can be used all year round.

We offer two bespoke Kyube solutions, which can be adapted to suit your taste and requirements.

Firstly, our Timber Frame building. This option comes fitted with your choice of Coastline exterior Cladding, plus your selection of door, door furniture and window colour.

The interior is left unfinished, only OSB boarded and insulated, allowing you to decorate the room to your design.

The second option is our modular timber building, Kyube Plus. In addition to choosing your exterior finishes, this building comes with the option to select an interior pack to give you the interior finish to suit your requirements.

Both frame options are available in a range of sizes to suit any shape and sized garden.

Everyone of our Kyube Garden Buildings are individually designed and made in the UK by our specialist team.

### FEATURES & BENEFITS OF KYUBE GARDEN ROOMS

Two frame style options

Choose a size to fit your space

Low maintenance

Choice of cladding colours

Optional side storage extension

15 year guarantee

# KYUBE PLUS MODULAR GARDEN ROOMS

KYUBE PLUS GARDEN ROOMS COME WITH A 15 YEAR GUARANTEE

Kyube Plus garden rooms are high-quality, highly-insulated garden buildings designed as a prefabricated modular SIP panel construction. They've been meticulously crafted to provide a long-lasting, warm and quiet space.

Kyube Plus exterior is beautifully vertically clad with either FSC, durable premium larch or redwood or PVC cladding in a choice of four colours.

Offering a full room solution, with all the usual optional extras built-in as standard. Insulation, heating, and electrics.

The interior of the building is fitted out in OSB and can be plastered if you require. We offer a flooring and skirting option so all you have to do is finish the walls in the finish of your choice.

Kyube Plus has double-glazed sliding patio doors and the option to add front windows in the larger sizes. The windows and doors are in Anthracite Grey with matching trims which compliment any of the cladding colours perfectly.

Best of all, Kyube Plus garden rooms are delivered pre-fabricated. So, they can be installed in as little as two days.

## WHAT'S INCLUDED:

- Can be installed in a few days  
Delivery in 4 weeks
- Prefabricated SIP panel construction
- Insulated steel base with Firestone EPDM rubber roof
- Maintenance-free PVC or wood vertical cladding
- Internal Electric kit with 2kw panel heater included
- Internal OSB or plasterboard lined walls - Optional extra Interior Decor Pack available
- Electric pack
- Optional - full height double-glazed window on wider rooms

## Customise your Kyube Plus exterior finish

When you choose out timber modular building the style is up to you. We offer 11 sizes with 6 external composite cladding options, 5 door furnishings and 3 door frame colours options to choose from. There are a combination of external finishes to work with every space and taste.

# KYUBE TIMBER FRAME BUILDINGS

## A COMBINATION OF CLADDING, DOOR AND WINDOW CHOICES

The modern natural appearance of Kyube makes it an attractive addition to any garden. It has a pressure treated timber frame, covered with low-maintenance composite cladding.

And if you want more flexibility on your interior finish, this is the best choice. The inside is a blank canvas of timber walls and floor, ready to add your own finish. Alternatively, opt

for an insulated and boarded finish and customise with our optional interior pack option.

There are six size options available, ranging from our smallest at 3.6m x 2.55m to our largest at 4.8m x 3.75m.

Choose French, patio or bi-fold doors. Plus, you have the option to add an extra corner window to let in more light in conjunction with our French doors.

### WHAT'S INCLUDED:

- Firestone EPDM rubber roof system
- PVC Patio, French or Bi-fold door with colour options
- Optional - 600mm Corner PVC Window
- Composite Coastline Cladding in a choice of 6 colours
- External lights included
- Electric pack
- Optional - Internal décor pack

# OASIS PERGOLAS

## WITH TILT OR FULLY SLIDING RETRACTABLE LOUVRES

Our Oasis pergolas come in two options. The Deluxe pergola has a retractable roof and is available in eleven sizes. And the standard pergola has a fixed rotating louvre roof and is available in six sizes. You can also choose to have your pergola freestanding or as a canopy attached to your house. Our pergola range are all manufactured with aluminium square frame in grey.

### Oasis Deluxe Pergolas

A deluxe pergola gives you the best of both worlds. Have an open space above your head so you feel like you're sitting out in the open. Or cover up at the touch of a button if it's too sunny or starts to rain. So, whatever the weather, you can experience the ultimate outdoor living feeling.

They're available in eleven sizes, ranging from our smallest at 3 x 3.02m, to our largest at 4 x 6.08m.

Deluxe pergolas also come with the option of adding an LED light strip. Providing you with an easy way to enjoy your space as the sun goes down.

### Oasis Pergolas

If you want to decide for yourself how much you want to enjoy the sun and weather, the Oasis pergola is the perfect choice. Using a remote control, you can easily tilt the louvres in the roof to a different position. So, you can play with the light, the shade and the airflow above you.

During the summer, you'll have the flexibility to either sit in the sun or take advantage of the shade. And in winter, you'll experience the benefits of a waterproof roof, protecting you against the elements. This allows you to enjoy your outside space all year round.

They're available in six sizes, ranging from our smallest at 3 x 3.01m, to our largest at 4.95 x 3.5m.

These pergolas also come with the option of adding an LED light strip.

# OASIS VERANDAS

EXTEND THE TIME SPENT OUTSIDE

Our Oasis verandas come in two options. The glass veranda has a glazed roof, and the polycarbonate veranda has a polycarbonate roof with four colour options. In addition, you can choose from three frame colours and two types of leg, guttering and footplate. And you can choose to have it installed with one side attached to your house, or freestanding, away from the house.

They're available in three widths and five depths, ranging from our smallest at 4.06 x 2.50m, to our largest at 6.06 x 6m.

All our verandas have an aluminium frame in a choice of three colours: white textures, cream white or grey textured.

## Oasis Verandas with glazed roof

Enjoy the daylight and uninterrupted views of trees, birds and stars, under a beautiful clear glass veranda. Our Oasis glass verandas aim to bring enrichment to your outdoor life, and a feeling a pure luxury. They give you space to enjoy being outdoors, while offering you shelter from bad weather. And a glass roof means they won't block out the light coming through your home's windows.

## Oasis Verandas with polycarbonate roof

If you'd like a veranda that's finished to perfection and is fully customisable to your needs, then meet the Oasis polycarbonate roof veranda.

Our polycarbonate roof veranda comes in a choice of three roof colours. If you love a clear view so you can see the sky and trees around you, choose a clear or ultra-clear. Or if you'd prefer a bit of protection from the sun, but still want plenty of light coming through, opt for opal or solar control.
