

BUILDING PLASTICS PRODUCT GUIDE

ISSUE 4

2021

QUALITY YOU CAN FEEL

As a leading supplier of cutting-edge, intelligently-designed products, Deeplas is at the forefront of design and innovation.

We offer multi-product solutions for every part of the home, as well as a unique colour collection for each system and profile, which means there's a shade to fit even the most demanding installation.

The Deeplas range allows extensive choice and solutions from the world's premier manufacturer. With high resistance to today's climate and lifestyle, you can be sure of a sound investment.

EXTERIOR

An aesthetically pleasing collection of roofline accessories and cladding can enhance any property and add value and style.

INTERIOR

Ceiling and wall panels along with melamine window boards offer innovative interiors with easy fixing solutions.

STYLE

Innovative design and technical excellence combine in cutting-edge products with lasting appeal.

INNOVATIVE

Deeplas only manufactures the highest quality products. Our calcium organic, dense PVC-U extrusions guarantee robust, attractive, long-life performance.

FIXED **20°** PITCH

skypod® range

The Skypod pitched lantern roof system enables you to create an eye-catching, contemporary feature that floods the interior of a property with natural light. It brings life and freshness to uninspiring flat-roofed buildings, and makes a stunning alternative to conventional conservatory roofs.

Skypod lantern roofs add height, light and volume to any living space. They are the perfect choice for a wide range of refurbishment, extension or new-build projects – including reception areas, classrooms, orangeries, kitchen-diners and garage conversions.

Designed for superior performance

Fast, accurate installation

U-values as low as 1.0**

Kits delivered in 4 working days

A choice of frame and glass colours

Cheaper than full aluminium alternatives

10-year guarantee

* Centre Pane U-Value. Standard U Value is 1.2 centre pane. U-value is applicable to glass only.

SOLID TILED ROOF SOLUTIONS

NEW
&
IMPROVED

BETTER VALUE THAN EVER

Variable or fixed pitch options

Greater structural strength

Easy and quick installation in 2 days*

Better value than ever

Design-engineered for outstanding technical performance

U-values as low as 0.15

5° pitch for lean-to's

LABC/LABSS certified

The sustainable choice

Our market-leading Equinox warm roof solid tiled solution is now also the sustainable choice. Paired with Envirotile, our precision manufactured recycled polymer tile system with excellent green credentials you have a solution with reduced environmental impact. The lightweight composition and interlocking fixing system means it is quicker and easier to install too.

Improved ventilation

Aluminium rafters in the lightweight roof have been separated from the 18mm OSB timber deck to increase the air gap, providing a clean flow of air through the roof system.

The enhanced ventilation of our system allows the roof to breathe adequately reducing the risk of any condensation.

Energy efficiency

New high performance styrene helps boost overall roof energy efficiency and thermal insulation to keep the room below comfortable enough to use at any time of the year.

Structural strength

Upgraded boarding in the roof system sandwich increases overall strength to allow larger areas without risk of sagging.

SAVE TIME

- ▶ **Quicker & easier installation**
Easy and quick installation in just 2 days.
- ▶ **Quotes & amends in under an hour**
We aim to get quotes and amends back to you within the hour.
- ▶ **Flexible lead times to suit you**
Tell us when you need it and it will be there. Average delivery time of under 5 days.

SAVE HASSLE

- ▶ **On-site support for peace of mind**
Our Qualified Engineers can assist with surveys and on-site installation training.
- ▶ **Leading technical support**
A dedicated support network to assist you throughout the process.
- ▶ **Roofs delivered on time in full**
Last year over 99% of our roofs were delivered on time in full to our customers.

FULLY VENTILATED ROOF SYSTEM

10-year guarantee

Equinox roofs are guaranteed for ten years*, so you can give your customers the assurance of a robust, well-designed, precision-made product that's built to last – manufactured by the UK's leading PVC-U specialist.

SlateSkin GRP sheet tiles offer a 25-year product guarantee*. Steel tiles offer a guarantee of 40-years* and composite slate tiles carry BBA certification and a guarantee of 40-years*.

*Provided the tiles and accessories are fitted correctly.

FASCIA COLOURS

GUTTERING COLOURS

STEEL TILES

High-quality steel tiles come as standard, and are made from lightweight steel in a choice of colours.

ENVIROTILE

Recycled polymer lightweight roof tile with an interlocking system that makes your job easier.

COMPOSITE SLATE TILES

Made from a recyclable mix of limestone and polypropylene, composite tiles offer traditional looks without risk of shattering, fading, warping or cracking.

[†] Pitches under 15° are only possible on Lean-to roofs

CLADDING

Weather-resistant, attractive, low-maintenance cladding

- Available in four styles: Coastline composite, tongue & groove, standard shiplap and embossed cladding
- Ideal for replacing rotting timber cladding or covering unsightly brickwork
- Manufactured from lead-free calcium organic PVC-U compound
- Offers better thermal insulation than brick, concrete or timber
- Full range of finishing PVC-U trims available

FINISH YOUR ROOM, THE QUICK & EASY WAY

Roomline PVC-U skirting and architrave slots together and glues straight onto the wall.

With internal and external corner pieces, there's no need to mitre to get the perfect corner. Plus it requires no messy sanding and painting, so installation is fast.

See our full range on page 40-47

ELEGANCE CAST IRON EFFECT GUTTERING

A stylish range of guttering and downpipe products

- A decorative effect that combines the look of a traditional cast iron system
- Quick to install and ready to fit without the need for painting or protective coatings
- Reduced total installation cost. (No metal primer, spanners, paint, or disc cutters required)
- Durable and long-lasting finish without the need to apply corrosion control traditionally used with cast iron systems
- UV stabilised to protect against colour fade
- Lightweight construction for easy handling, assembly and installation
- Stylish and functional, making the range suitable for new build and residential projects

INTERESTED IN BECOMING A PREMIUM ROOFLINE INSTALLER?

FIND OUT MORE

premium
roofline installer scheme

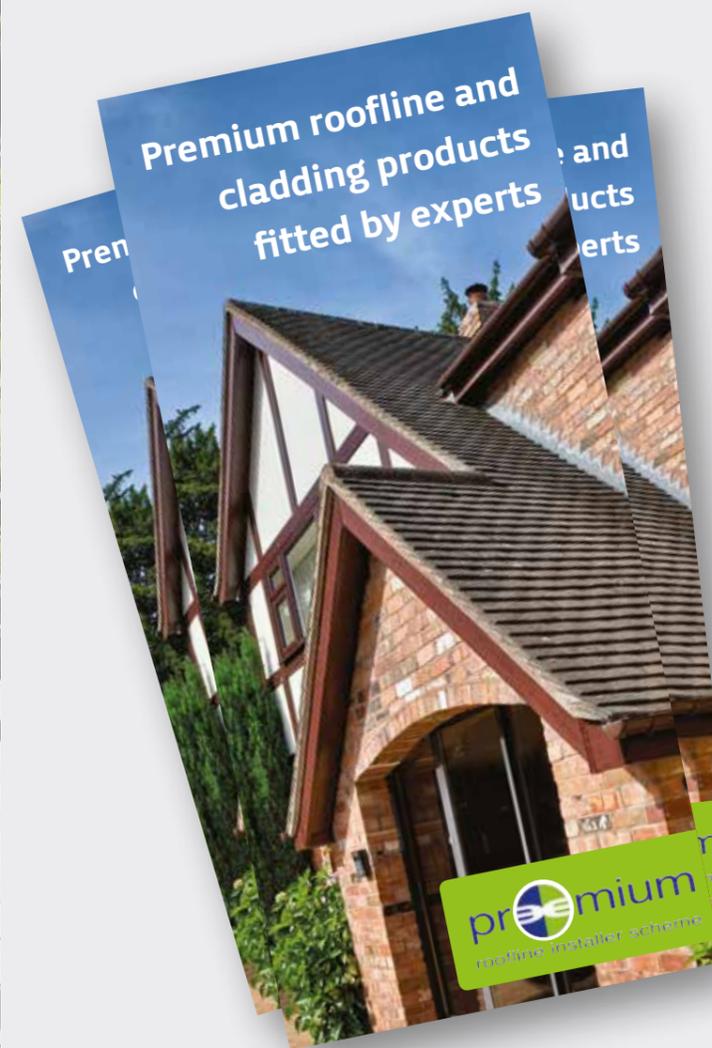

Deeplas invites quality installers to become accredited installers

They must attend a training session at the dedicated Deeplas training centre, where they are shown how to fit our premium PVC-U products to exacting Deeplas standards.

After successfully completing the training, installers are awarded their accreditation, along with supporting marketing materials and samples.

If you require more information about our products or training facilities call our hotline on

GUARANTEES

White Deeplas building products are guaranteed for up to a maximum of 20-years.

White - for a period of 20-years from the date of original purchase, PVC-UE cellular profiles (series Deeplas®) shall not crack, swell or corrode;

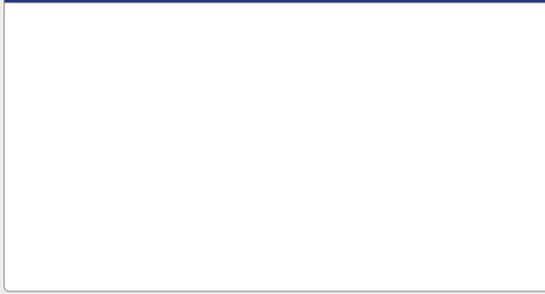

Foiled - for a period of 10-years from the date of original purchase, the foil of PVC-UE cellular profiles (series Deeplas®) being exposed in climatological conditions corresponding to the UK and Ireland, will remain almost unchanged it being understood that the contrast corresponding to scale 4 on the grey scale according to ISO 105/A03 is not exceeded. A guarantee of 10-years for

foiled profile is available on request. Please visit the Deeplas website for further information. The aforementioned guarantees are only valid if the product has been handled and installed in accordance with the specifications detailed within the Technical Application Guidelines booklet.

Non-compliance of these recommendations invalidates any Deeplas warranty.
