

BUILDING PLASTICS PRODUCT GUIDE

ISSUE 5

Look inside – Roofline,
Architraves and Trims, Embossed
Cladding, Shiplap, Composite Claddings,
Window boards, Rainwater, Rooftiles,
Shower Panels and more ...

QUALITY YOU CAN FEEL

As a leading supplier of cutting-edge, intelligently-designed products, Deeplas is at the forefront of design and innovation.

We offer multi-product solutions for every part of the home, as well as a unique colour collection for each system and profile, which means there's a shade to fit even the most demanding installation.

The Deeplas range allows extensive choice and solutions from the world's premier manufacturer. With high resistance to today's climate and lifestyle, you can be sure of a sound investment.

EXTERIOR

An aesthetically pleasing collection of roofline accessories and cladding can enhance any property and add value and style.

INTERIOR

Ceiling and wall panels along with melamine window boards offer innovative interiors with easy fixing solutions.

STYLE

Innovative design and technical excellence combine in cutting-edge products with lasting appeal.

INNOVATIVE

Deeplas only manufactures the highest quality products. Our calcium organic, dense PVC-U extrusions guarantee robust, attractive, long-life performance.

FIXED **20°** PITCH

skypod® range

The Skypod pitched lantern roof system enables you to create an eye-catching, contemporary feature that floods the interior of a property with natural light. It brings life and freshness to uninspiring flat-roofed buildings, and makes a stunning alternative to conventional conservatory roofs.

Skypod lantern roofs add height, light and volume to any living space. They are the perfect choice for a wide range of refurbishment, extension or new-build projects – including reception areas, classrooms, orangeries, kitchen-diners and garage conversions.

Designed for superior performance

Fast, accurate installation

U-values as low as 1.0**

Kits delivered in 4 working days

A choice of frame and glass colours

Cheaper than full aluminium alternatives

10-year guarantee

* Centre Pane U-Value. Standard U Value is 1.2 centre pane. U-value is applicable to glass only.

BETTER VALUE THAN EVER

Variable or fixed pitch options

Greater structural strength

Easy and quick installation in 2 days*

Better value than ever

Design-engineered for outstanding technical performance

U-values as low as 0.15

5° pitch for lean-to's

The sustainable choice

The market-leading Equinox warm roof solid tiled solution is now also the sustainable choice. Paired with Envirotile, a precision manufactured recycled polymer tile system with excellent green credentials you have a solution with reduced environmental impact. The lightweight composition and interlocking fixing system means it is quicker and easier to install too.

Improved ventilation

Aluminium rafters in the lightweight roof have been separated from the 18mm OSB timber deck to increase the air gap, providing a clean flow of air through the roof system.

The enhanced ventilation of the system allows the roof to breathe adequately reducing the risk of any condensation.

Energy efficiency

New high performance styrene helps boost overall roof energy efficiency and thermal insulation to keep the room below comfortable enough to use at any time of the year.

Structural strength

Upgraded boarding in the roof system sandwich increases overall strength to allow larger areas without risk of sagging.

SAVE TIME

- ▶ **Quicker & easier installation**
Easy and quick installation in just 2 days*.
- ▶ **Quotes & amends in under an hour**
We aim to get quotes and amends back to you within the hour.
- ▶ **Flexible lead times to suit you**
Tell us when you need it and it will be there. Average delivery time of under 5 days.

SAVE HASSLE

- ▶ **On-site support for peace of mind**
Our Qualified Engineers can assist with surveys and on-site installation training.
- ▶ **Leading technical support**
A dedicated support network to assist you throughout the process.
- ▶ **Roofs delivered on time in full**
Last year over 99% of our roofs were delivered on time in full to our customers.

For more information, please call 0800 988 7307

* Watertight on day one. With full internal fit-out projects complete in 4-5 days.

10-year guarantee

Equinox roofs are guaranteed for ten years*, so you can give your customers the assurance of a robust, well-designed, precision-made product that's built to last – manufactured by the UK's leading PVC-U specialist.

SlateSkin GRP sheet tiles offer a 25-year product guarantee*. Steel tiles offer a guarantee of 40-years* and composite slate tiles carry BBA certification and a guarantee of 40-years*.

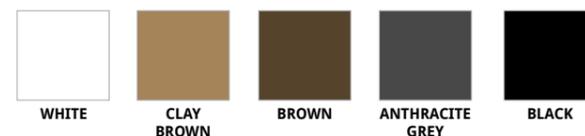

*Provided the tiles and accessories are fitted correctly.

FASCIA COLOURS

Additional colours are made-to-order on extended lead times

GUTTERING COLOURS

STEEL TILES

High-quality steel tiles come as standard, and are made from lightweight steel in a choice of colours.

ENVIRO TILE

Recycled polymer lightweight roof tile with an interlocking system that makes your job easier.

COMPOSITE SLATE TILES

Made from a recyclable mix of limestone and polypropylene, composite tiles offer traditional looks without risk of shattering, fading, warping or cracking.

SLATESKIN TILE SHEET

This composite tile sheet is precision-engineered for enhanced performance, available in 6m, 4m or 2m wide sheets.

[†] Pitches under 15° are only possible on Lean-to roofs

INTERNAL PANELS

Shower Panels	61
Solid WPC Wall Panels	64
Ceiling and Wall Panels	66

SHOWER PANELS

More than just a shower panel, these panels can be used to finish the walls in other areas of the home from the garage to garden rooms

- Simple to clean
- Easy to install
- Waterproof
- Impact resistant

SHOWER PANELS

Deeplas Tongue & Groove Shower or Wall Panels

Every Deeplas shower panel is 900mm wide – 2400mm long -10mm thick.

Deeplas shower panels are ideal for bathroom, shower enclosure and wet rooms, a perfect alternative to traditional ceramic tiles. With no grouting required this makes the panels quick and easy to fit and eradicates the potential for build-up of mould, making it a more hygienic panel finish. Basic DIY tools are all you need for a simple, straightforward installation.

The smooth finish of these panels makes cleaning extremely easy - just a simple wipe down with a warm cloth.

Deeplas has a range of modern and aesthetically pleasing trims available to ensure the joins are sealed correctly. To ensure your panels are 100% watertight a thin bead of silicone should be used inside the trim then the panel should be inserted into the trim. Once this silicone has dried the shower enclosure is then ready to use. This will give you a beautiful wet room or shower enclosure which is 100% waterproof.

Deeplas shower panels are 100% lead free and have a 5-year guarantee given a perfect finish that will last.

More than just a shower panel, these panels can be used to finish the walls in other areas of the home from garage and loft conversions to garden rooms or office spaces.

Available in a range of 14 colours and finish options, this ensures that there is a design to enhance any shower or bathroom interior.

Tongue & Groove Shower Panel 10mm thick

The Deeplas shower panels are ideal for bathroom, shower enclosure and wet rooms, a perfect alternative to traditional ceramic tiles

CEILING AND WALL PANELS

Wall panels

Hygienic, easy-clean, waterproof wall panels in a choice of colours to suit all tastes

When you need clean, hygienic, moisture resistant wall coverings, the Decor system from Deeplas offers an attractive, easy clean solution that will enhance any room.

Suitable for a wide range of interiors

The waterproof tongue-and-groove panels are ideally suited for many rooms in the home, as well as shops, offices, shower rooms, steam rooms (up to 60°C), food preparation areas, laboratories and many more.

Ceiling panels

White waterproof panels provide an attractive wipe-clean ceiling for any application

If you need to create a clean, waterproof ceiling for any bathroom, shower enclosure or wet room, EasyCeil from Deeplas provides an ideal solution that will enhance the appearance of your room.

Premium-quality wipe-clean panels

The lightweight, white gloss panels are 100% waterproof and are embellished with chrome infills to create a premium-quality look. Panels are delivered with a protective film covering and once fitted can be kept in immaculate condition with a simple wipe clean. The White Oak ceiling panel is available with matching trims.

Commercial Rainwater System (150mm)

Commercial Rainwater System (150mm)

Designed to handle large volumes of water with ease, as the outlet design encourages a vortex effect for greater water flow down the pipe. The Commercial system is suited to commercial or large domestic housing projects.

NEW CONTEMPORARY CONSERVATORY RANGE

A modern conservatory for the 21st century

Our latest contemporary conservatory offer uses a combination of an exclusive pilaster system, a slimline roof system and a modern highline gutter to create a conservatory for the 21st century.

- New Pilaster design with Coastline or Ecoscape Cladding
- Slimline conservatory roof system allows spans of up to 5.5m
- Modern highline gutter designed for ease of installation
- Quotes and amends in under an hour
- Delivered to site in as little as 5 days

For more information on our contemporary conservatory range visit deeplas.co.uk.

BALUSTRADES

COMPLETE YOUR DECKING IN STYLE

COMPOSITE HOLLOW DECKING

THE DURABLE ALTERNATIVE TO TIMBER

Composite balustrades and railings complete any hollow decking project in style. High quality and durable, you can choose to match the decking colour or create a contrast with five colour options. Available to order as a kit or as individual components. Composite balustrades and railings are sturdy and simple to install to any decking area, garden, outdoor space or holiday home.

BENEFITS OF BALUSTRADE

20 year guarantee Strong and safe Quick and easy installation Low maintenance Easy to clean No painting or staining

Warranty Details Balustrades

Deeplas Balustrades are covered by a twenty (20) year warranty against warping, cracking, splitting, rotting and fungal decay caused by manufacturing defects, when subject to normal use. For the full terms and conditions of this warranty please ask our Customer Care Team for further documentation.

For more information on our ballustrade range visit deeplas.co.uk

Composite hollow decking is perfect for gardens, patios, pool areas and holiday homes. Its recycled wood polymer construction makes composite wood so much more durable than timber. Composite wood

has added resistance to damage from a variety of the common threats to the appearance of decking; whether that be bicycles, barbecues, party-goers, paddling pools or garden furniture.

BENEFITS OF COMPOSITE HOLLOW DECKING

20 year guarantee Natural look Durable and long lasting
Slip resistant No painting or staining Seamless installation with hidden fixings

For more information on our composite decking range visit deeplas.co.uk

THE NEW OASIS VERANDAS RANGE

OASIS VERANDA
with glazed or polycarbonate roof system
Available with Sliding Glass doors or LED lighting packs

Oasis verandas come in two options. The glass veranda has a glazed roof, and the polycarbonate veranda has a polycarbonate roof with four colour options. In addition, you can choose from three frame colours and two types of leg, guttering and footplate. And you can choose to have it installed with one side attached to your house, or freestanding, away from the house.

They're available in three widths and five depths, ranging from our smallest at 4.06 x 2.50m, to our largest at 6.06 x 6m.

All our verandas have an aluminium frame in a choice of three colours: white textures, cream white or grey textured.

INTERESTED IN BECOMING A PREMIUM ROOFLINE INSTALLER?

FIND OUT MORE

premium
roofline installer scheme

Deeplas invites quality installers to become accredited installers

They must attend a training session at the dedicated Deeplas training centre, where they are shown how to fit our premium PVC-U products to exacting Deeplas standards.

After successfully completing the training, installers are awarded their accreditation, along with supporting marketing materials and samples.

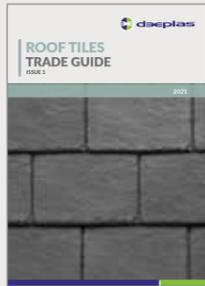

If you require more information about our products or training facilities call our hotline on

0800 988 7305

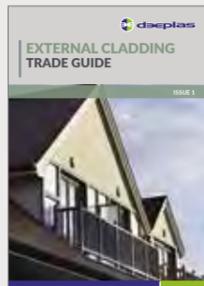

For more information on our verandas range visit deeplas.co.uk

GENERAL INFORMATION

This Product Guide supersedes all previous issues. We reserve the right to amend specification prices at any time without prior notice.

It is not our policy to accept returned goods. However, in exceptional circumstances we may consider acceptance but this must be pre-arranged and will in all cases attract a handling charge of 25%. The Customer will be liable for the full amount in the event of a cancellation of the order.

Due to our policy of consistent improvement, all drawings, photographs and technical details are subject to change without notice. The profiles and colours shown may differ slightly in shape, scale and/or colour.

GUARANTEES

White Deeplas building products are guaranteed for up to a maximum of 20-years.

White - for a period of 20-years from the date of original purchase, PVC-UE cellular profiles (series Deeplas®) shall not crack, swell or corrode;

Foiled - for a period of 10-years from the date of original purchase, the foil of PVC-UE cellular profiles (series Deeplas®) being exposed in climatological conditions corresponding to the UK and Ireland, will remain almost unchanged it being understood that the contrast corresponding to scale 4 on the grey scale according to ISO 105/A03 is not exceeded. A guarantee of 10-years for

foiled profile is available on request. Please visit the Deeplas website for further information. The aforementioned guarantees are only valid if the product has been handled and installed in accordance with the specifications detailed within the Technical Application Guidelines booklet.

Non-compliance of these recommendations invalidates any Deeplas warranty.
