COMPLETE BUILDING PLASTICS RANGE

Look inside -
Roofline, Architraves and Trims,
Embossed Cladding, Shiplap, Composite
Claddings, Window boards, Rainwater,
Rooftiles, Shower Panels and more...

QUALITY YOU CAN FEEL

As a leading supplier of cutting-edge, intelligently-designed products, Deeplas is at the forefront of design and innovation.

We offer multi-product solutions for every part of the home, as well as a unique colour collection for each system and profile, which means there's a shade to fit even the most demanding installation.

The Deeplas range allows extensive choice and solutions from the world's premier manufacturer. With high resistance to today's climate and lifestyle, you can be sure of a sound investment.

EXTERIOR

An aesthetically pleasing collection of roofline accessories and cladding can enhance any property and add value and style.

INTERIOR

PVC-U Skirting and Architrave products are low maintenance and offer great value.

STYLE

Innovative design and technical excellence combine in cutting-edge products with lasting appeal.

INNOVATIVE

Deeplas only manufactures the highest quality products. Our calcium organic, dense PVC-U extrusions guarantee robust, attractive, long-life performance.

DRY VERGE

Dry Verge

Dry verge “Dry Fix” systems offer an alternative to traditional “Wet Fix” mortar fixing methods. Dry Verge is a roofing option which is growing in popularity due to its many styles and ability to prevent weather and pest issues from affecting your roof. Not only is it an effective and more durable alternative there are also aesthetic advantages, as the roof can be colour coordinated and will not require maintenance for a longer periods of time.

Euroverge

Euroverge is a new Dry Verge system, manufactured in the UK by Eurocell. It’s universal, meaning it can be installed on the left or right roof verge, has an easy-to-fit clip fixing system and is compatible with all our PVC-U roofline products.

- Fits on a wider range of batten centres than standard dry verge systems (255mm – 345mm)
- Increased 5mm water channelling abilities
- Can be installed on low pitch roofs down to 12.5o
- Conforms to BS8612 and BS5534
- Euroverge is low-maintenance
- Suitable for use on existing and new roofs
- Protects your roof spaces from water ingress, insects and other pests

5° pitch for lean-to's

The sustainable choice

The market-leading Equinox warm roof solid tiled solution is now also the sustainable choice. Paired with Envirotile, a precision manufactured recycled polymer tile system with excellent green credentials you have a solution with reduced environmental impact. The lightweight composition and interlocking fixing system means it is quicker and easier to install too.

Improved ventilation

Aluminium rafters in the lightweight roof have been separated from the 18mm OSB timber deck to increase the air gap, providing a clean flow of air through the roof system.

The enhanced ventilation of the system allows the roof to breathe adequately reducing the risk of any condensation.

Energy efficiency

New high performance styrene helps boost overall roof energy efficiency and thermal insulation to keep the room below comfortable enough to use at any time of the year.

Structural strength

Upgraded boarding in the roof system sandwich increases overall strength to allow larger areas without risk of sagging.

SAVE TIME

- ▶ **Quicker & easier installation**
Easy and quick installation in just 2 days*.
- ▶ **Quotes & amends in under an hour**
We aim to get quotes and amends back to you within the hour.
- ▶ **Flexible lead times to suit you**
Tell us when you need it and it will be there. Average delivery time of under 5 days.

SAVE HASSLE

- ▶ **On-site support for peace of mind**
Our Qualified Engineers can assist with surveys and on-site installation training.
- ▶ **Leading technical support**
A dedicated support network to assist you throughout the process.
- ▶ **Roofs delivered on time in full**
Last year over 99% of our roofs were delivered on time in full to our customers.

For more information, please call 0800 988 7307

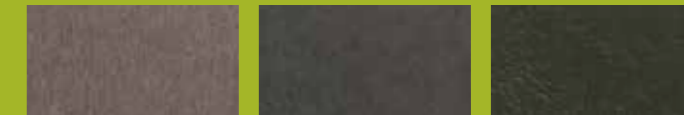

* Watertight on day one. With full internal fit-out projects complete in 4-5 days.

GUTTERING COLOURS

STEEL TILES

High-quality steel tiles come as standard, and are made from lightweight steel in a choice of colours.

ENVIRO TILE

Recycled polymer lightweight roof tile with an interlocking system that makes your job easier.

COMPOSITE SLATE TILES

Made from a recyclable mix of limestone and polypropylene, composite tiles offer traditional looks without risk of shattering, fading, warping or cracking.

SLATESKIN TILE SHEET

This composite tile sheet is precision-engineered for enhanced performance, available in 6m, 4m or 2m wide sheets.

[†] Pitches under 15° are only possible on Lean-to roofs

CLADDING

Weather-resistant, attractive, low-maintenance cladding

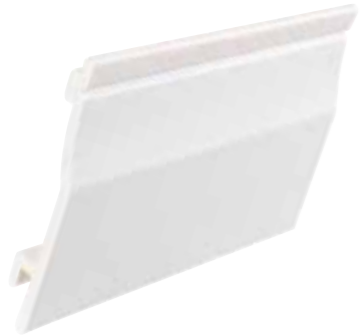

- Available in four styles: Coastline composite, tongue & groove, standard shiplap and embossed cladding
- Ideal for replacing rotting timber cladding or covering unsightly brickwork
- Offers better thermal insulation than brick, concrete or timber
- Full range of finishing PVC-U trims available
- Ventilation trims must be used for all Deeplas Cladding systems to increase air circulation and avoid issues with condensation, heat build-up and drainage

COASTLINE COMPOSITE CLADDING

A LIGHTWEIGHT COMPOSITE CLADDING THAT'S EASY TO INSTALL

coastline[®]
LIGHTWEIGHT COMPOSITE CLADDING

MINIMAL EXPANSION/CONTRACTION

INDEPENDENTLY FIRE TESTED (UK 2018) TO BS EN 13501-1

PATENTED COMPOSITE MATERIAL

SIX NEW ENGLAND THROUGH COLOURS

BBA CERTIFIED SYSTEM

OUR BEST-SELLING COMPOSITE CLADDING,
NOW AVAILABLE IN TWO STYLES

Coastline cladding is an innovative composite cladding system that lifts the appearance of any property and adds up to 10 years of guaranteed weatherproof performance.

Our horizontal range is extremely popular, but we're always looking for new ways to bring you and your customers better products and more choices. That's why we've expanded the range to include vertical cladding.

Our new vertical cladding range boasts all the same benefits as the horizontal range but allows for a sleek flush finish achieving a more modern look. And it's amazingly easy to work with and fit because it's lightweight, easier to lift and handle than cement boards, and needs no other trades on site to get the job done.

Available in six New England colours

Coastline Feather Edge Plank - Horizontal 203mm x 5mm x 5000mm

skypod range

The Skypod pitched lantern roof system enables you to create an eye-catching, contemporary feature that floods the interior of a property with natural light. It brings life and freshness to uninspiring flat-roofed buildings, and makes a stunning alternative to conventional conservatory roofs.

Skypod lantern roofs add height, light and volume to any living space. They are the perfect choice for a wide range of refurbishment, extension or new-build projects – including reception areas, classrooms, orangeries, kitchen-diners and garage conversions.

Designed for superior performance

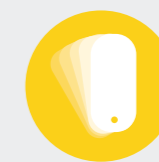

Fast, accurate installation

U-values as low as 1.0**

Kits delivered in 4 working days

A choice of frame and glass colours

Cheaper than full aluminium alternatives

10-year guarantee

ROOF TILES

High-quality rainwater systems, ideal for small and large scale projects

- These roof tiles are ideal for use with the Equinox warm roof system for conservatories, or can be used on other structures, such as lean-tos, garages, sheds and garden rooms
- Sheet tiling systems allow you to fit a realistic slate-effect, water-resistant system to conservatory roofs in around 50% less time
- Suitable for roof projects with a 5° to 35° pitch

SLATESKIN TILE SHEETS

SLATESKIN - NO COMPROMISE ON BUILD QUALITY

UP TO 50% FASTER TO INSTALL THAN AUTHENTIC CONSERVATORY TILING METHODS

EASY-FIT SHEET SYSTEM

BALUSTRADES

COMPLETE YOUR DECKING IN STYLE

COMPOSITE HOLLOW DECKING

THE DURABLE ALTERNATIVE TO TIMBER

Composite balustrades and railings complete any hollow decking project in style. High quality and durable, you can choose to match the decking colour or create a contrast with five colour options. Available to order as a kit or as individual components. Composite balustrades and railings are sturdy and simple to install to any decking area, garden, outdoor space or holiday home.

BENEFITS OF BALUSTRADE

20 year guarantee Strong and safe Quick and easy installation Low maintenance Easy to clean No painting or staining

Warranty Details Balustrades

Deeplas Balustrades are covered by a twenty (20) year warranty against warping, cracking, splitting, rotting and fungal decay caused by manufacturing defects, when subject to normal use. For the full terms and conditions of this warranty please ask our Customer Care Team for further documentation.

For more information on our ballustrade range visit deeplas.co.uk

Composite hollow decking is perfect for gardens, patios, pool areas and holiday homes. Its recycled wood polymer construction makes composite wood so much more durable than timber. Composite wood

has added resistance to damage from a variety of the common threats to the appearance of decking; whether that be bicycles, barbecues, party-goers, paddling pools or garden furniture.

BENEFITS OF COMPOSITE HOLLOW DECKING

20 year guarantee Natural look Durable and long lasting
Slip resistant No painting or staining Seamless installation with hidden fixings

For more information on our composite decking range visit deeplas.co.uk

GUARANTEES

White Deeplas building products are guaranteed for up to a maximum of 20-years.

White - for a period of 20-years from the date of original purchase, PVC-UE cellular profiles (series Deeplas®) shall not crack, swell or corrode;

Foiled - for a period of 10-years from the date of original purchase, the foil of PVC-UE cellular profiles (series Deeplas®) being exposed in climatological conditions corresponding to the UK and Ireland, will remain almost unchanged it being understood that the contrast corresponding to scale 4 on the grey scale according to ISO 105/A03 is not exceeded. A guarantee of 10-years for foiled profile is available on request. Please visit

the Deeplas website for further information. The aforementioned guarantees are only valid if the product has been handled and installed in accordance with the specifications detailed within the Technical Application Guidelines booklet.

Non-compliance of these recommendations invalidates any Deeplas warranty.
