**PUBLICATIONS**

**Fresh ideas. Fresh insight.**

Published since 1895, FRESH PRODUCE JOURNAL is the number-one resource for UK fruit and vegetable professionals. The publication appears in print, online, and now via a new mobile app, built by the same developers as The Economist. The app delivers the pick of our daily news, analysis, opinion and multimedia direct to your smartphone, as well as giving subscribers access to digital versions of our latest print issues.

**Available on the App Store, Google Play and desktop: https://desktop.fpj.co.uk**

The FPJ is also evolving its print edition in 2021. Special issues, each with a different theme, are posted to subscribers 10 times a year, as well as being distributed at major industry events. In 2021, we are introducing three new regular sections: The Big Interview, Morning Call and Produce Pioneers (see the 2021 editorial programme for more details). In addition, our issues include interviews with the industry’s key players, special features, company profiles, in-depth category reports, the latest market data and much more.

**More from Fresh Produce Journal**

**The Big 50 series**

The FPJ Big 50 series includes two of the most anticipated fresh produce publications of the year: the Big 50 Companies, which ranks and spotlights the biggest and best businesses in UK fresh produce, and the Big 50 Products, which lists the best-selling wholehead fruits and vegetables in British supermarkets.

Widely read and distributed throughout the year, the two publications are essential reference guides to products’ sales performance and the latest retail trends affecting the market.

**The FPJ newsletter**

The FPJ newsletter, which we email to subscribers free of charge each morning, rounds up the daily news we upload to our website. With stories ranked in order of importance, it makes the latest fresh produce news easy to digest.

---

We use banner software which has the advantage that the publication and appearance of banners cannot be turned off by the recipient. The disadvantage, however, is that we are not able to provide automatic click statistics. We recommend banner advertisers to use tags in their banners so that they are able to monitor clicks themselves using Google Analytics.
