

## Evolve

With the development of Evolve we focused upon enhancing the intuitive comfort and simple user adjustment. Evolve incorporates a revised tilt action and the chair is available in a choice of colours for the moulded components.

The inclusion of flexible seat and back membranes enhance comfort and flexibility whilst also delivering excellent thermal benefits to the user.

Design by Paul Brooks

### Standard Features (\*Selected models only)

Light Grey base  
Brushed steel 150kg gas lift  
Synchronised mechanism with adjustable tension and travel limitation in four steps, including locking upright  
Two degree negative seat tilt  
Flexible seat and back membrane  
60mm seat depth adjustment

## ENVIRONMENTAL

### Material Content

Components are constructed of the following

### Recycled Content

Contains up to 41.5% of Recycled Material

### Recyclability

The range is 100% recyclable

100%

## SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

—Reduce  
—Reuse  
—Recycle
