

space that works

Xpresso

Product Guide

Xpresso is a versatile family of stacking chairs designed to provide a practical and stylish solution for a range of environments.

Sleek and comfortable, with a lightweight yet robust chrome tubular steel frame, they can be linked together with the optional linking strip.

Ideal for use in a wide range of settings including educational establishments, cafes, auditoria, conference facilities and meeting rooms.

Xpresso

Xpresso's ergonomic design provides enhanced support and comfort.

Xpresso one

Everyday comfort,
style and versatility,
Xpresso is the chair
for all occasions

Xpresso

Adding greater flexibility and choice to the range, **Xpresso one** stool is ideal for café, bar and breakout areas. Conveniently stacks to 5 high.

Available in
nine colours
- mix them
up for extra
vibrancy

Xpresso

The upholstered versions of Xpresso are perfectly suited to meeting or conference settings.

Xpresso three

The elegantly contoured perforated back provides an alternative contemporary design aesthetic to the Xpresso family and sits perfectly in any environment. A complementary bar stool is available.

Xpresso three with arms

Xpresso options

The **writing tablet** is available for right or left hand use, simply detach to enable stacking.

Linking feet

An optional linking strip enables chairs to connect together.

Stacking Trolley

The Xpresso chair comfortably stacks to 10 high without the need for a trolley. The trolley enables stacking up to 45 high for convenient storage and easy manoeuvrability.

Xpresso taking the environmental impact seriously

In everything we do, our aim is to ensure we act ethically and responsibly by adopting a high level of Corporate Social Responsibility. This is embedded in all our practices to the benefit of our customers, employees, suppliers and the communities within which we operate.

Connection are committed to minimising the environmental impact of our operations and ensure our products are as sustainable as we can make them.

Xpresso chairs are made with the minimum number of materials and components in their construction to enable up to 100% recyclability.

Throughout all Connection's processes, we consider their impact upon the environment, from the initial design of the product, through its manufacture and delivery, right up to its disposal when it has reached the end of its useful life.

Xpresso's durable design characteristics ensure a long lifespan of the product and a chair that will satisfy your ethical concerns for the environment.

it's easy to recycle your chair at the end of its life...

In 2012 Connection gained full membership to FISP (Furniture Industry Sustainability Programme) to further demonstrate our commitment to measuring and improving environmental impacts.

FISP accreditation shows that we continually strive to improve our processes, taking every opportunity to reduce, reuse and recycle throughout the lifecycle of the product.
