Indoor Aquatics & biOrb
Spare part catalogue 2022/2023

Dear OASE trade partner,

On the following pages you will find spare parts for all products in the OASE product line for the current season 2022-2023, as well as for products that have been discontinued in recent years. The spare parts are sorted simply and logically according to the respective-product segment.

OASE always stocks spare parts for at least 5 years, in some cases up to 8 years from the last effective out date.

If for economic and/or technical reasons, spare parts delivery within the five years cited above is not possible, OASE offers a successor or replacement product.

More information concerning the extensive product range, as well as the 2022-2023 new products, is available at www.oase.com.

For our General Terms and Conditions please refer to our website:
www.oase.com/generaltermsandconditions.

Dear OASE trade partner,

OASE always stocks spare parts for at least 5 years, in some cases up to 8 years from the last production date. If for economic and/or technical reasons, spare parts delivery within the five years cited above is not possible, OASE offers an equivalent product or at OASE's discretion a successor model as product, free of charge.

If repair of the electrical components of an OASE device should be necessary, you can send this device to us for repair, at your own expense and risk. In warranty or guarantee cases the repair is free of charge, therefore we decide whether we repair or send an equivalent part.

Authorised companies can also execute these types of repairs themselves, in compliance with the appropriate VDE guidelines. In this situation should you require safety-relevant spare parts, you can request these parts from us per fax with this form!

Fax purchase order: +49 54 54 / 80 92 69 To OASE GmbH

Repair of electrical devices

Sender:

Customer no.	_____	Address	_____

I hereby assure that the maintenance / repair on the OASE immersion motor pump or a different electrical device, type ... will be properly and expertly executed, also with due consideration of the prescribed safety tests in accordance with VDE 0700 T1, T41 and VDE 0701 T 1 and T200.

I am aware that in accordance with the instructions for use specified by OASE, liability on the part of the manufacturer for damage that occurs due to improper operation or repair, or due to inadequate maintenance or normal wear (wearing parts), is excluded.

In particular the following requirements in accordance with VDE 0700 T41 paragraph 13, 15, 16 and 27 must be considered.

Excerpt from the directive:

- | | | |
|------------------------------------|---------------|---------|
| • High-voltage test: | 1250 volt | 1. min. |
| • Protective earth conductor test: | 25 amp | 2 sec. |
| • Function test: | 220 V / 50 Hz | 5 sec. |
| alternatively | 380 V / 50 Hz | 5 sec. |
| • Leakage current test: | <0.75 mA | 5 sec. |
- as well as
- Pressure-water tightness test on the submerged complete pump

Electrical device:

Required spare parts:

OASE Guarantee

OASE GmbH offers a manufacturer's guarantee under the conditions specified below; the respective duration of the manufacturer's guarantee is marked based on the product. The guarantee period is also provided in text form with the product. The term of the respective guarantee period starts with the first-time purchase of the new product from the authorised OASE dealer. If the product is resold, the guarantee period does not start over again. The guarantee period is neither extended nor restarted through guarantee performances, nor do legal warranty claims arise on guarantee performances. If the guarantee is not expressly specified, then OASE provides a guarantee in the scope cited below: The prerequisite for claiming any guarantee from OASE, including the extension guarantee, is that the customer must have properly and exclusively installed original OASE spare parts when replacing parts, or for a repair or for any kind of improvement. If products from third-party manufacturers are installed, any OASE guarantee is rendered null and void. At our discretion we provide a guarantee through free-of-charge repair or free-of-charge delivery of original spare parts, or of an equivalent replacement device. If the type in question should no longer be manufactured, we reserve the right, at our discretion, to deliver a replacement device from our product range that most nearly approaches the type that was the object of the complaint. Reimbursement of expenses for removal and installation, checking, claims for lost profit and compensation for damage, as well as reverse transaction claims are not included in the guarantee, likewise more extensive claims for compensation of losses, regardless of the type, that have been caused by the device and its use, are not included in the guarantee. The guarantee only applies for the country in which the devices were purchased from an authorised OASE dealer.

According to these conditions German law with exclusion of the United Nations Convention on Contracts for the International Sale of Goods (CISG), applies for this guarantee. The legal rights of the purchaser, in particular arising from the warranty are not affected by this guarantee. Defects or damage due to faulty installation or operating error, as well as insufficient care or the use of unsuitable cleaning agents or neglected maintenance, non-intended use, damage, impact, the effects of freezing temperatures, etc., cutting of the plug, shortening the cable, limescale deposits or improper repair attempts, are not covered by the guarantee. In this respect, relative to the intended use, we refer to the operating instructions; compliance with the operating instructions is the basic prerequisite for any claim arising from the guarantee. Wear parts, e.g. bulbs, etc. are expressly not a component of the guarantee; wear parts are specified in the operating instructions of the products. If there is a guarantee claim, please contact the OASE dealer, who sold the product to you. If this possibility does not exist, you can assert claims arising from the guarantee relative to OASE GmbH, Tecklenburger Str. 161, 48477 Hörstel, Germany, by sending to us the product that is the object of the complaint, carriage paid, and at your transport risk, with a copy of the original purchase receipt of the authorised OASE dealer, the original guarantee certificate, as well as written specification of the fault that is the object of the complaint. A directory of authorized OASE dealers is provided at: www.oase.com
