

Robust-Aire Systems 1,2,3,4,5,&6

Teich-Aire rocking piston compressors

- Provide efficient, continuous-duty operation with minimal maintenance and quiet operation. Units are extremely quiet.
- Included pressure relief valve, air filter with replaceable cartridge, brass barbed elbow, and rubber mounting feet.
- Sound level is less than: 70 dB without cabinet (Window air conditioner), 65 dB with cabinet and acoustic sound proofing (Normal conversation)
- Safely starts under pressure. Maximum operating depth 40 feet.

Warranty: Two year complete warranty on all parts.

KM-120, ½ HP Compressor

Part Number	CFM @ 0 PSI	CFM @ 10 PSI	CFM @ 15 PSI	CFM @ 20 PSI	CFM @ 25 PSI	CFM @ 30 PSI	CFM @ 40 PSI	CFM @ 50 PSI
KM-120C	5.5	4.8	4.5	4.2	4.0	3.6	3.2	2.7

Part Number	HP	Frequency	Voltage	Amp @ 0 PSI	Amp @ 20 PSI
KM-120C	1/2	60	120	3	4

- Oil-less piston
- Continuous or intermittent operation
- 115V or 230V and 50 Hz or 60 Hz power options
- Safety Tested: ETL listed to UL and CSA standards, CE marked (the KM-200C does not carry CSA recognition)
- Quiet operation
- Low maintenance and dependable design
- Backed by a two-year warranty
- 6 ft. power cord
- Thermal overload protection
- Ramped internal valve plate for restarting under load
- 40 PSI pressure relief valve, intake air filter, brass hose fitting
