LIVING WATER

WATER ENTERTAINMENT

FIND YOUR WATERPOWER —
DISCOVER THE NEW FACE OF WATER.

OASE — PASSIONATE ABOUT WATER.

WATER ENTERTAINMENT –

FASCINATING MOMENTS FOR GARDENS AND PATIOS.

Dancing water in perfect symbiosis with light is not just attracting looking but it also invites you to lean back and relax. Being a highlight in your garden, our

Water Entertainment products create an individual place for well-being. **Be creative and indulge yourself** with modern design in your garden, patio or foyer.

Their sophisticated design allows the products to be integrated even if you have very little space. Be inspired by our new products at: www.oase-waterentertainment.com

Water Jet Lightning. Jumping Jet Rainbow Star's little brother does not stand back: The Water Jet Lightning appeals by its individually selectable programs in which the clear, laminar water jet is set into scene thanks to the integrated LED light. The colours of these water/light effects change or can be set permanently – a highlight for any garden.

Water Trio and Water Quintet. These two dynamic water features are characterised by their vivid water patterns with 3 or 5 individually controlled nozzles which enable you to create a variety of water fountains. Each program can be chosen easily by the remote control.

Water Starlet. Compact and afloat, this water feature brings life into every water garden. Thanks to the individual nozzle alignment you can show the effect in any location – beautiful design even where space is limited.

DYNAMIC AND HARMONY –

AN ORCHESTRA OF WATER

WATER TRIO AND WATER QUINTET

This visual orchestra characterises the new generation of water features. With their flexible application, Water Trio and Water Quintet can be integrated into every custom-designed garden.

Patios become living spaces where you can sit back, relax and watch the various water patterns the Trio and Quintet offer.

- Unique dynamic water effects with 3 or 5 illuminated nozzles
- Variations in the fountain height, the program intervals and light intensity via remote control
- Premium LED technology as brilliant white luminous LED rings
- »Plug'n'Spray« concept for a quick installation

IDEAL IMPLEMENTATION:

- Flexible – on a gravel bed, combined with a water reservoir or in ponds

RAINBOW DUET

WATER JET LIGHTNING

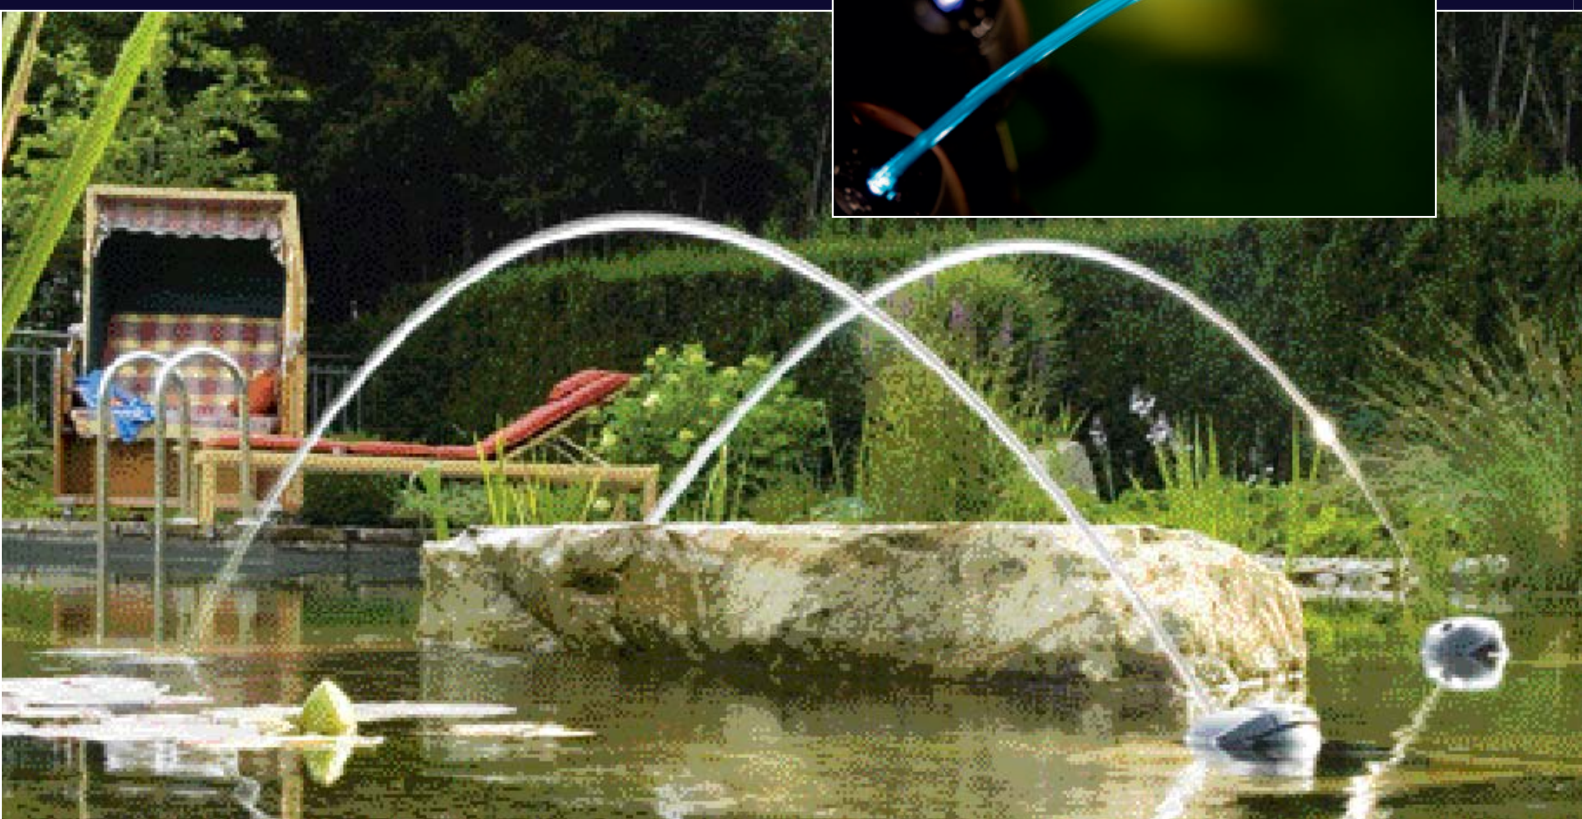

Magic water-light-effects:
two Water Jet Lightning units highlight your
patio and garden in a unique way.

- Variations of jet range and several colours
via remote control
- Premium LED technology
- High-quality design with stainless steel
applications
- Set with the unique »Plug'n'Spray«
concept for fast installation

IDEAL IMPLEMENTATION:

- Implementation in the water and out of the
water, e.g. from the bank into the water or
in a gravel bed

COMPACT WATER PLAY, BIG EFFECT

WATER STARLET

Creativity and individuality take on a whole new meaning with this water effect. The Water Starlet can be integrated in any environment: water pool, swimming pond or into a gravel bed.

There are no limits to your ideas. Thanks to the brilliant LED technology, the five water jets create an impressive water pattern. The set program sequence shows a big variety of recurring water patterns.

- High-quality LED illuminating power in the individually adjustable nozzles
- Safe, energy-efficient 12V technology
- Unique »Plug'n'Spray« concept for a quick installation

IDEAL IMPLEMENTATION:

- Implementation into water pools, swimming ponds, or in a gravel bed combined with a water reservoir
