Passionate for Ponds. *Dedicated to Quality.*

# OUR MISSION

To provide **expert advice and technical support** regarding ponds, lakes and water features and to supply the very **best equipment available today** in a rapid manner to **our customers throughout the UK.**

- ✓ We provide specialist technical advice available by telephone, email, live chat or by visiting us. **We have over 70 years combined in-house experience in pumping, filtration, design, engineering and waterscaping.**
- ✓ We provide **detailed, itemised quotations** available with individual links to our expansive website at **[www.water-garden.co.uk](http://www.water-garden.co.uk)**
- ✓ Highly **competitive pricing** and **trade discounting** available.
- ✓ Huge stocks of equipment from market-leading global suppliers and we carry a **5 Star OASE Retailer** status for added peace of mind.
- ✓ Rapid **UK-wide courier despatch** of goods direct to site, home or office, usually available on a **next working day service.**
- ✓ We'll package together all components required to simplify installation and ensure **complete client satisfaction.**
- ✓ We look to supply you with localised project enquiries received via our online **Landscaper Finder Tool** to your company.
- ✓ Provide access to future **OASE, Firestone and Otterbine training** and seminars.

**Water Garden Ltd** have been specifying and supplying high quality waterscaping equipment to garden designers, landscapers and architects **throughout the UK for over 18 years.**

Our proven technical experience and deep product knowledge sets us far apart from the competition.

**We can also produce Bespoke and Customised installation pieces** such as Water Rills, Water Blade Cascades, Capillary Water Walls, Fountain Spray Bars and decorative sculptures from materials such as Stone, Glass, Copper and Stainless Steel.

# POND Equipment

## FILTRATION

Filters & Ultraviolet-Clarifiers for all pond sizes and fish stock densities.

## WATERFALLS

Cascading water blades and decorative stone liners for attractive displays.

## FILTER PUMPS

Solids-handling & energy efficient. For supplying pond filters & waterfalls.

## FOUNTAINS

A massive range of decorative fountains for stunning water displays.

## LIGHTING

Fully submersible range of LED lighting for all pond and landscape applications.

## SMART CONTROLS

Switchboxes and remote control systems for smart device control.

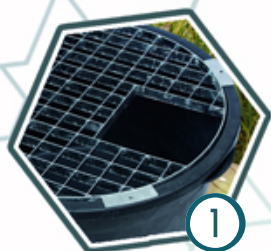

“ The guys at Water Garden have such an in-depth knowledge of their products. As a Landscape Gardening firm, we find their help invaluable when at the planning and costing stage. ”

# FOUNTAINS & Features

1

## RESERVOIRS

Catchment tanks with steel grids for pondless water features.

2

## FOUNTAINS

Easy to assemble pondless water displays without open water safety concerns.

3

## BLADE CASCADES

Popular and stunning cascading water sheets for pond or garden installation.

4

## WATER FEATURES

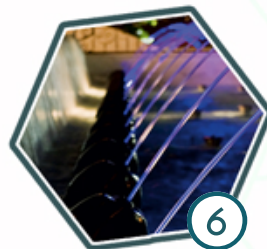

Garden features made of stone, copper and stainless steel.

5

## DANCING WATER

Pulsing, dynamic fountains and lighting options with smart controls.

6

## BESPOKE

One-off pieces constructed to your design in virtually any material.

“ We have used Water Garden's excellent products on many of our installations, from fountain rings, jet nozzles, pumps and filters. Great service, technical back-up and value for money. ”

# LIGHTING Systems

## SUBMERSIBLE

Fully submersible lights, connectors and transformers.

## PLUG & PLAY

Low voltage, adaptable and simple to install in both pond and garden.

## RGB LIGHTING

Remote controlled, submersible colour changing LED lighting.

## DECK LIGHTING

IP68 rated deck lights for patio and pond installation.

## COMMERCIAL

Highly durable, powerful lighting for larger projects.

## MIST MAKERS

Wide range of illuminated foggers for interesting water effects.

“ Water Garden have a great range of low voltage garden and aqua lighting which we have used several times. In short they provide a first class service that is hard to find and are genuinely nice people who have a passion in what they do. ”

# POWER Management

1

## REMOTE CONTROL

Control pond and garden equipment via a remote handset.

2

## SMART CONTROL

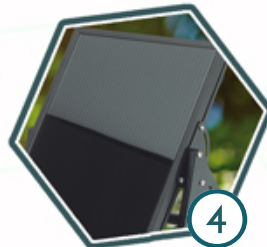

Control the entire garden via Smartphone or Tablet.

3

## CABLE JOINTS

IP67 & IP68 cable joints and electrical junction boxes.

4

## SOLAR PRODUCTS

Photovoltaic Panels, controllers and batteries for self-sufficient operation.

5

## ECO PUMPS

Smart pumps to facilitate electronic control of water flow.

6

## SWITCH BOXES

Fully weatherproof switches and electrical distribution boxes.

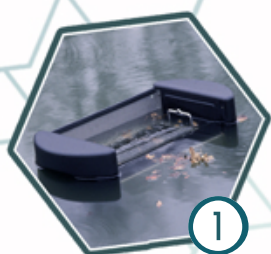

“ Water-Garden definitely go the extra mile to provide exceptional customer service, which is why I return to them time and time again - I've been a customer for close on ten years. ”

# LAKE Management

1

## LAKE SKIMMERS

Floating surface skimmers proficient in coping with large surface areas.

2

## DISPLAYS

Impressive floating fountains from small displays to grand jets shooting over 50ft high.

3

## SURFACE AERATORS

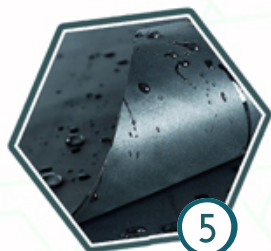

Floating surface aeration units in a variety of display styles and sizes.

4

## LIGHTING

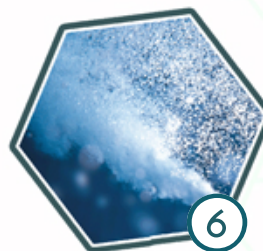

High output, submersible lighting, stand alone or for connection to floating units.

5

## LAKE LINERS

Durable, guaranteed materials and liner seaming supplies.

6

## DIFFUSE AERATION

Submersed solutions for deep water and discrete aeration projects.

“ Their attention to detail, knowledge, courteousness and help is second to none. They treat the customer as king and as if you are the only person that they are dealing with. It is totally personal and individual advice for YOUR setup. ”

# FLOATING Fountains

1

## DECORATIVE

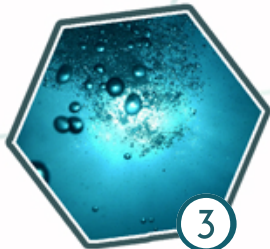

Simple to install, smaller scale floating fountains for ponds.

2

## ENERGY EFFICIENT

Low energy, high volume floating aerators with decorative effects.

3

## SALT WATER

Range of fountains and aerators for brackish and salt-water applications.

4

## IMPRESSIVE

Substantial fountain displays for commercial and residential ponds and lakes.

5

## HIGH VOLUME

Low profile floating aerators for lake oxygenation and circulation.

6

## ILLUMINATION

Powerful Halogen, Low energy LED and colour phasing lighting options.

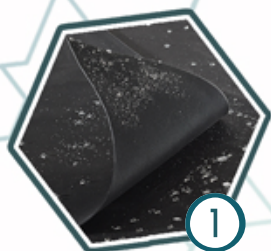

“ It's not just the sale of a product, but the whole thought process from calculations right through to installation methods. ”

# POND & LAKE Construction

1

## RUBBER LINERS

High quality PVC and EPDM Rubber liners for virtually any pond or lake sealing task.

2

## POND PAINTS

Two part epoxy paints for concrete pond sealing and available in virtually any colour.

3

## UNDERLAY

Heavy duty, non-woven protective underlay to safeguard the pond lining.

4

## POND EDGING

Solid, torsion-resistant pond barrier, for easy installation and elegant results.

5

## STONE LINERS

Flexible, stone impregnated liners for decorating pond perimeters and streams.

6

## ADHESIVES

Underwater sealants, expanding foam, liner jointing materials and cleaning solvents.

“

I can happily recommend Water Garden Ltd. The sales team couldn't have been more helpful and they supply quality products, professionally made. Fast delivery and impressive customer service. I couldn't have asked for more.

”

# DRAINAGE & Irrigation

1

## SOLIDS HANDLING

Workhorse pumps to make light work of the dirtiest jobs.

2

## WELL PUMPS

High pressure borehole pumps for evacuating water from significant depths.

3

## PUDDLE SUCKERS

Pumps capable of removing nuisance water down to 1mm depth.

4

## FLOAT SWITCHED

Emergency evacuation of water with automatic switching.

5

## IRRIGATION HOSE

Flexible smooth bore pipe and lay flat hoses for rapid water transportation.

6

## IRRIGATION PUMPS

Self-priming and high pressure pumps for connection to garden hose and other irrigation equipment.

“

I would like to convey sincere thanks to your staff in the help and efficiency that has been given. If all companies had staff and support like yourselves, this country's trading position would be unbeatable.

”
